## Small Truck Rules

**Questions on rules text Buzzy at 320-290-9126 and they will be answered in a timely manner.**

1. Welding from the center of the front wheels forward permitted. This is the only frame welding allowed.
2. Patch and pucker frame. 6" long ¼" thick plate outside of the frame only, 8" between patches.
3. No frame swaps. No Imperial sub frames, K frames, etc. Stock only!
4. Stock bumpers only. Make sure the bumper can cover your beam. No pointy bumpers.
5. Must have a hood and must be bolted down in max of six places using 1" rod, 6" washers max. 12" x 12" opening in the hood above the carburetor. All doors must be welded shut. Eight 4" x 4" pads per door.
6. Roll bars allowed inside the cab only, can be attached to floating cage, cannot be attached to frame. In the box can be attached to the floor of the box, but cannot attach to cab cage or frame. Kickers can go back to front of the rear axle.
7. Dash bar 3" max, door bars and rear cab bars are allowed. No kickers down to the frame.
8. Cab reinforcement must remain separate from the box.
9. Gear protection in the box cannot be attached to the cab, box front, sides or rear.
10. Tailgate must be welded to the box. Factory tailgates only.
11. No stuffing of body panels (fenders, box sides, etc.)
12. Rear bumpers that are removed, must have frame rails capped using channel or angle, not to extend further than frame rail width.
13. Prior run trucks must meet rules.
14. May add an additional eight body bolts total, other than factory locations in cab and box. 6" washers max.
15. 4 x 4's must have the front driveshaft removed.
16. Dodge Dakota's are allowed. No full size trucks allowed.
17. Motor mounts may be welded. Two additional straps or chains can be added. Must be behind the water pump, but in front of the carburetor.
18. Radi-barrels must be inside frame rails (top and bottom) may be welded or bolted in, 3" thick outside to outside max and vented down.
19. No homemade spring packs – leafs only.
20. Look at the general rules as they apply to every pit person and the driver.
21. Bottom of the bumper, both front and rear must be 20" to 24" from the ground.
22. No pre-folding box down (like vics). Frame should be covered by body.
23. No shortening wheelbase.
24. Floor plates that are replaced ⅛" steel max.
25. If it doesn't say you can do it, don't! (It is not allowed!)
